

1.2.3. Pattern - 1

04:03

Write a Python program to print a pattern of asterisks in the form of a right-angled triangle.

Input Format:

- The input is an integer, representing the number of rows in the pattern.

Output Format

- The output should display the pattern of asterisks (*), with each row containing an increasing number of asterisks.

Note: Refer to the displayed test cases for the sample pattern.

Code:

```
n=int(input())
for x in range(1,n+1):
    for y in range(1,x+1):
        print("*", end=" ")
    print()
```
